# AwG – H

## High Efficiency Water Generator

| MODEL AWG-H15 SHOWN: | | |
|---|---|---|
| Run Power: | 17.5 kW | Height: 70" \| 178 cm |
| Humidity Range: | 30-100% | Width: 48" \| 122 cm |
| 24hr. Capacity: | 240 gallons : 912 Liters | Length: 58" \| 147 cm |

Sophisticated, durable, yet simple, our AWG-H series water generators preserve nature's elements while creating pure water from air.

THE AWG-H series produces and purifies water by:

- Converting clean, invisible vapor to Water
- Intake air is filtered first

Quench Innovations
*Water from air*

## Quenching Thirst Globally!

**...through Innovation**

Our Global quest has begun, but have you, our Florida neighbor, experienced AwG water?

**Quench Innovations** distribution team is here to oversee and process your water challenges first, then to serve the Globe

## *What We Are All About*

**Quench Innovations** is now delivering high-quality Water Generating units-first to fill local water challenges, then on to fill our vision:

**Quenching Thirst Globally!**

Our units harvest invisible humidity into consumable water.

Water source of the future is **available NOW**

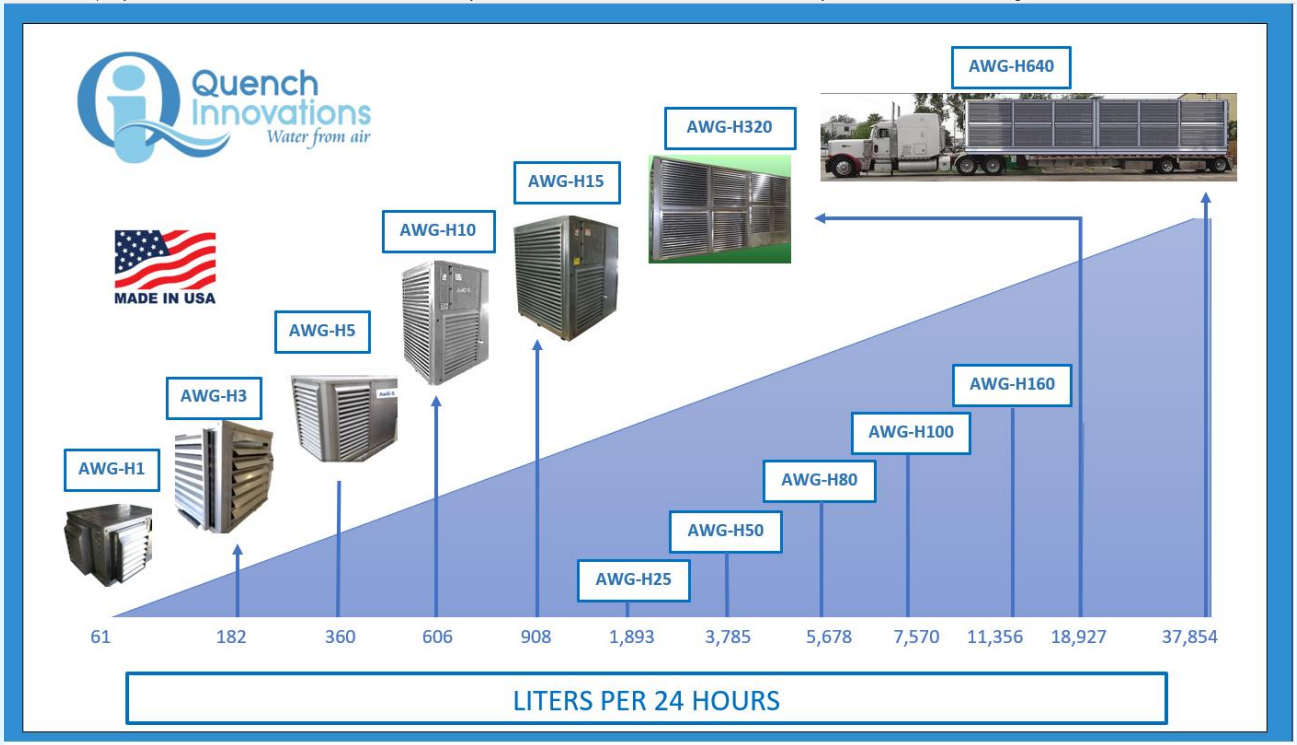
Your investment Today will feel very prudent tomorrow and expected to keep producing water through the next 2 to 3 decades.

## Get Started NOW

# AwG has developed and now offers a variety of custom water models to meet today's water needs.

# Units range from 16 to 10,000 gallons per day.

**(61 to 38,000 Liters per day)**



You and I must have clean water to stay alive!
