

Club Outdoors: Signs of Spring Discovery Hunt

Hey Club Kids,

We can't wait to get you exploring our Natural Areas once Club starts up again! For this Discovery Hunt, work with your family to see these things at our natural areas or in your neighborhood. No need to collect/gather anything and in fact that is not allowed in natural areas. You can take photos of each item instead. Feel free to share your pictures with staff & friends! Remember, do your part and keep 6 ft of social distance from other people.

We will see you soon,
Club Outdoors

Rules: Find signs of spring and enjoy the fresh air, maybe even some sunshine too 😊

Signs of Spring Discovery Hunt Checklist	
Things to look for:	Yes/No (Y/N)
Birds' nests (Are there any birds in it?)	
Flowers that are just about to bloom	
Green grass poking up behind brown grass	
Look up! See any budding trees?	
Is the soil (ground) wet? Is it muddy?	
Do you hear birds singing? More than 1?	
Mushrooms popping out after all the rain (not edible, poisonous)	
Do you still see snow on the ground? Or puddles?	
Do you see any other wildlife? (rabbits, squirrels, deer, or insects)	
If you're by a river, does it seem higher to you? See any fish?
