BETTA GUMBO

SOUTHERN FLAVORS

GET YOUR 'SHINE ON!

What is Moonshine? Moonshine is the nickname given to whiskey that has never been aged in wooden barrels. During prohibition, bootleggers had no time to waste on aging their whiskey for flavor, so the hooch went straight from the still to the mason jar. Moonshine is known by many nicknames such as white lightning, mountain dew, hooch, homebrew, shiney, white whiskey, and mash liquor. Clay's family hails from Ouachita Mountains of Arkansas, so that's how moonshine found it's way to Betta Gumbo! Our house-infused moonshine is a signature item at Betta Gumbo with a lot of family pride behind it. It is 190 proof, so we'll limit you to three cocktails just to keep it between the lines! Enjoy our Moonshine cocktail suggestions and all of our 'Shine flavors for the mason jar sophisticate!
