

THE BLANK INDUSTRIES™ DEALER RECYCLING PROGRAM

Let us show you how the Blank Industries™ Dealer Recycling Program can help you dramatically increase your profitability on bulk products like mulch, loam, and compost, etc.

If you, the distributor, allow your customers to dump recyclable debris like brush, trees, stumps, wood chips, grass clippings and leaves for a nominal fee of \$7.00 - \$15.00 per yard, you can bring that to Blank Industries'™ Recycling Yard in Hudson, MA. As long as you are purchasing the same volume in bulk material simultaneously, we would accept those recyclable items at **NO CHARGE** to you. (Non-dealers pay a fee.) When you apply the fees you charged your customers for dumping to purchase bulk materials from Blank Industries™, you will dramatically decrease your actual cost on these items, while increasing your profitability and your efficiency on trucking.

Simply bring us your recyclables and pick up bulk materials at the same time!

Program Notes

All items (ie. brush, stumps, wood chips, loamy fill, grass, and leaves) will only be received on an individual basis.

We do not accept any other items for recycling, unless specifically authorized by management.

All loads will be inspected prior to acceptance. We reserve the right to refuse any loads that do not meet the above stated requirements and Blank Industries™ reserves the right to cancel the recycling program for any dealers violating the above rules.
