

Product Data Sheet

# ST SERIES

"L" Edge Trim

SAMPLE SPECIFICATION

specify as: SOFTFORMS® Model # ST-XXX

The extruded aluminum profile shall incorporate a continuous integral fin for surface contact to conventionally installed gypsum drywall. The fins shall be 7/8" wide and shall be tapered to the edge. The tapered fins shall be punched with holes staggered to accept standard screw fastening. A series of continuous grooves shall be extruded into the face of the fins to provide greater bonding surface. The extruded profiles shall be primed with corrosion-resistant primer compatible with materials normally in use in conjunction with commercial interiors, i.e.: joint compound, latex and enamel paints, and wall covering adhesives.

MATERIAL: Aluminum alloy.....6063 T5 or equal  
Finish.....Factory primed

Below is the complete listing of SOFTFORMS© extruded aluminum "L" Edge Trim profiles for drywall construction. All SOFTFORMS© extrusions come with a opaque, greenish color etched corrosion resistant primer compatible with materials normally used in conjunction with drywall construction.

<i>ST Model No.</i>	<i>Depth</i>
ST-050	1/2"
ST-063	5/8"
