# How to download student projects

The following steps will download the student projects files. In the example below, we are downloading one of our Minecraft class material to a Windows7 PC. The text in the steps will work for MAC and non-Windows7 PCs, but the screenshots maybe different.
1. Click on one of our **Download Links** below:

2. On the **Dropbox Download** window, click on the **Download** button.

3. (For Windows PC only) Once the download of the zipped file is completed, right click and click on "Show in folder"

4. Double-click on the zipped file that was download.

5. Copy the folder on the Window Explorer to another location.
