

COPPER -vs- ZINC

COPPER

ZINC

+ Cleans the whole slope of vour roof*

- + Permanent/ lifelong solution that is durable and will not warp
- + Prolongs water contact maximizing results of released ions
 - + Beautiful appearance that will eventually blend into the shingles

+ Reusable

- Cleans partially down the slope of your roof **BOTH**

- + Clean algae from shingled roof
 - + Release lons
- + Simple to Install
 - + Works on **Existing Roofs**
 - + Time Release

- Temporary and vulnerable to damage and warping
 - Water passes right over, no prolonged contact

NOTES ON CHEMICALS

- They are a temporary solution that will need reoccurring applications.
- Waste of your money in the long run.

Bare Roof Zinc COPPER CAT OFING STRIPS NSTALLED

^{*} Test results have shown Copper Cat to clean 30ft down roof face.
