

EVERY ROOF IS A SYSTEM. YOUR ROOF SHOULD BE AN ATLAS SYSTEM.

MAXIMIZE your protection by installing products that are specifically manufactured to work together in an Atlas Signature Select® Roofing System.

When you install a roofing system where all components are manufactured by Atlas, you not only get upgraded to an unprecedented 20-YEAR Premium Protection Limited Warranty**, but you also get peace of mind. That means one manufacturer standing behind a system that provides lasting protection for one of the biggest investments you can make in your home.

Atlas Signature Select® Premium Protection Period Benefits:

- Non-Prorated Labor & Material Coverage
- Optional High Wind Coverage
- Full System Coverage - All Atlas Components
- Fully Transferable

Ask your contractor for the best roofing system in the industry. Ask for Atlas Signature Select®!

** Refer to the Atlas Signature Select® Limited Warranty for all system and coverage requirements.

STORMMASTER® SLATE

HIGH WIND AND IMPACT RESISTANT SHINGLE

CLEAN IS BUILT INTO EVERY ROOF

StormMaster® Slate shingles are manufactured using the latest in algae-resistant technology, so you will never need to worry about streaking again—ever. StormMaster® Slate shingles featuring Scotchgard™ Protector is the best assurance of built-in long-term algae and stain resistance. The shingle color you choose is the color you'll keep.

When black algae streaks take over, it not only looks terrible, it also makes your house appear old and dirty, and reduces the curb appeal and value of your home.

Look around at the roofs in your neighborhood. See anything like this? Since algae spores are carried by the wind, even if you don't have this problem now, you soon could.

Algae Streaking is a problem almost everywhere in the U.S.... Except on an Atlas Roof featuring Scotchgard™ Protector.

The Science of Algae Prevention

Copper Stops Algae. Copper-fortified granules are uniformly distributed across the surface of StormMaster® Slate shingles. Independent third-party laboratory tests ensure optimal and consistent copper content, resulting in an algae resistant shingle qualified to earn the Scotchgard™ name.

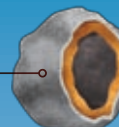

Mineral

Copper

Ceramic Coating

TOUGH IS BUILT INTO EVERY SHINGLE

StormMaster® Slate is manufactured incorporating a rubberized SBS polymer that helps create a more durable, and longer lasting shingle that provides protection in extreme weather conditions.

Ask your insurance agent about discounts on your homeowners insurance when you install StormMaster® Slate featuring Scotchgard™ Protector.

WHAT MAKES STORMMASTER® SLATE SUCH A GREAT CHOICE?

Atlas Pristine Shingles Featuring Scotchgard™ Protector

There is simply no greater algae resistance than Scotchgard™ protection, and we incorporate regular independent third-party laboratory testing to validate even spread of copper granules, ensuring maximum algae resistance is built into every shingle.

Manufactured Using SBS

All weather application and superior wind resistance.

Class 4 Impact Resistance

Highest impact rating available.

Lifetime* Limited Warranty Against Algae Growth

Simply put, once you choose StormMaster® Slate featuring Scotchgard™ Protector, you will never need to worry about algae growth on your roof ever again.

Lifetime* Limited Warranty

Lasting protection against shingle manufacturing defects.

Up To 130 MPH Limited Wind Warranty

Provides superior resistance against wind and wind driven rain.

Up To 20 Year Peace of Mind

Premium Protection Period is the initial non-prorated labor and material coverage for your new roof. With an Atlas Signature Select® system, you get unprecedented coverage for your new roof.

DEMAND THE BEST, STORMMASTER® SLATE FEATURING SCOTCHGARD™ PROTECTOR.

www.AtlasRoofing.com

* See Atlas Limited Warranty for all system and coverage requirements. Atlas Pro-Cut® Hip & Ridge featuring Scotchgard™ Protector must be installed on the roof ridge for the Lifetime Limited Warranty against algae growth to be valid.

FINAL COLOR SELECTIONS SHOULD BE MADE USING ACTUAL SHINGLES

Because of their size, swatches cannot accurately depict the color clarity. Please consult your Atlas distributor for specific color availability. Colors and shadow lines in the photos and the sample boards should be used as a guideline for your color selection.
