

# JOHN EASTERLY

## SENIOR PROJECT MANAGER

---

### SUMMARY

Mr. Easterly, a native of Watson, LA, has more than 40 years' experience in the general civil construction industry. Being one of the most experienced and knowledgeable civil contractors in south Louisiana, he has extensive experience and has developed a unique approach in the areas of land development, building landfill cells, roadways and installing utilities.

### NOTEABLES

- Excavated, Hauled & Graded over 5 million cubic yards of fill dirt and sand in the last 22 years that included embankment, structural fill and selected fill.
- Installed over 150 miles of secondary roadways including asphalt, concrete, open ditch, curb & gutter, soil cement, lime stabilization, slip form paving and hand placement.
- Installed over 800 thousand linear feet of water, sewer and gas distribution lines.
- Installed over 750 thousand linear feet of subsurface and open ditch drainage systems.
- Experience installing constructed steel, high-pressure gas transmission lines and high-density polyethylene low pressure gas distribution systems.
- Installation of gas collection systems for landfills.
- Installation of multiple land cell construction projects.
- Installed over 5 thousand feet of concrete drainage in City of Denham Springs.
- Recycled over 1.5 million linear feet of oil absorption boom following the BP Oil Spill.
- Operated Debris Reduction Site following Hurricane Gustav in Livingston Parish.
- Disposed of over 1.4 million cubic yards of flood debris after Louisiana's Great Flood of 2016.

### EXPERIENCE
