

## Maker's Space List

The Teachers at Elite Scholars STEAM Academy always strive to encourage our students to flourish in the areas of science, technology, engineering, arts, and mathematics. In order to do this, we use many materials. Please donate some of the listed items so that we can continue to build critical thinkers in our classrooms. If it is not convenient for you to make these purchases then please contribute \$20 for each child. This covers the entire school year.

- Alka-Seltzer Tablets
- Baking soda
- Balloons
- Borax
- Cardboard
