

Joining a ZOOM Video Conference - For Class Participants

How Do I Join A Meeting? **Most importantly**, pre-register for the class, then email us at studio6@ebbfite.com so we know which class you'd like to attend remotely. We will then send you an email invite. *The easiest option is to then click on the link to join the class.*

The key to connecting is the *Meeting ID*, which connects you to the Video call.

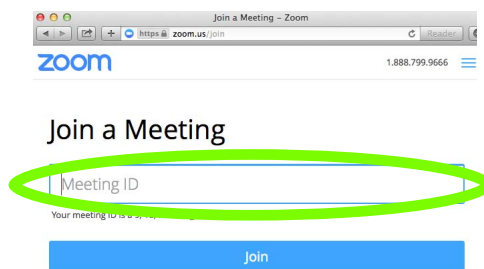

From an email, you can write it down, or 'Copy' it to your phone or tablet, or simply click on the link that says 'join from PC, Mac, iOS or Android'. See Options A, B, and C. **Before your first video call, though, you'll need do a 1-time, free registration at zoom.us/signup** If you already are registered, move on to A, B, or C.

A. Join from any browser

Open any browser

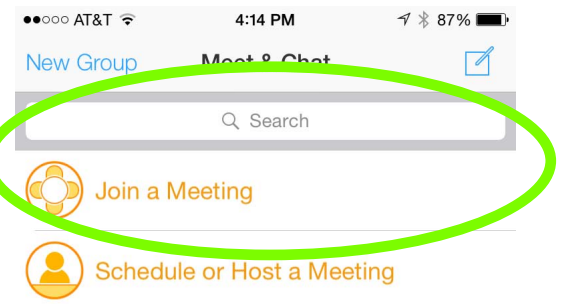

Go to zoom.us/join

Enter your meeting ID

B. Join via Zoom App

Download the Zoom app to your phone or tablet, and login. Then select the "Join" button either before or after logging in. When you enter the "meeting ID", you're connected. Simple!

C. Join via email with 1 click

After you have set up a Zoom account, you can join any meeting by using the Link in your e-mail. Click the link to join by Meeting ID. You're in!

Hi there,

You are invited to a Zoom meeting now.

Join from PC, Mac, iOS or Android:
<https://zoom.us/j/463235943>

Important! Unless you are the instructor, hover your cursor in the lower left corner of the screen and MUTE your microphone; otherwise, students will see you instead of the instructor.
