

SPIVI

Spivi is an innovative, social-network enhanced 3D visualizing system. Installed on existing equipment, Spivi communicates with ANT+ sensors on each bike. It is a great way to offer users a fun, mind-blowing indoor cycling workout as riders engage in interactive scenery with personal avatars attached to their on-screen bikes.

SPIVI

FEATURES

- Compatible with any bike model
- Real-time simulation
- Online facility promotion
- Create your own programs
- Fully interactive scene
- Live performance feedback
- Brand and logo presence
- Class scheduler
- Cloud services and system updates
