Why Pet Insurance?

To protect ourselves financially against the unexpected, we have health insurance, car insurance, home-owners insurance, etc. Pet insurance is no different! The care available to pets is often on par with human medical care and because of this veterinary costs are on the rise.

Protect Employees' Financial Being

Studies show that more than 57%** of employers will offer pet insurance as a benefit in 2021. Employers are recognizing that by offering pet insurance they can help protect their employees' financial well-being and give them one less thing to worry about.

Pet insurance coverage covered and administered by Pets Best Insurance Services, LLC is underwritten by American Pet Insurance Company.
