*In celebration of [Arts Month](#), the **Cultural Office of the Pikes Peak Region** and the **Pikes Peak Outdoor Recreation Alliance** have joined forces to orchestrate the 2nd annual Pikes Peak Litter Letter Project—resulting in a unique piece of public art that is constructed with trash collected during **Creek Week**. Modeled after the national Litter Letter Project, and with permission to use their logo and concept, the local Pikes Peak Litter Letter Project aims to inspire artistic creativity, passion for the outdoors, and environmental stewardship by creating a public art piece that focuses on the efforts to keep our public lands and waterways clean.
