

Welcome to Freeman Bailbonds,

Upon picking up your friend or loved one we need you to call into the office and let us know that everything went ok.

We will need the defendant to call into the office and complete any missing information from the application and go over a few requirements of the bond.

Requirements:

Must download the bailbooks app on your smartphone allowing the app to use your location. You will receive an email from garycasso with instructions on how to download the app and also inform you of your user name and passcode. You must do check ins with the bailbooks system as required.

User Name	
Pass Code	

Must notify the office of all future court dates and must report to court as ordered.

Both Defendant and Indemnitor must maintain a working phone and update the office with any changes to phone number or address. (Failure to do so can result in forfeiture of the bond)

When case is closed you must do one last check in with bailbooks and notify the office.

***** Bond is separate from court in the fact that the bond must be paid in full no matter what is going on in your case.*****

Thank You
Dawn
