

## Pricing and Insurance Claims

Pre-payment is required for all testing at this time. We are not currently enrolled with any insurance companies. However, we are happy to file an out-of-network insurance claim as courtesy on the behalf of the patient. If you would like us to submit a claim to your insurance provider after test completion, please include a copy of the front and back of your insurance card with the test order. If Medicare is your primary insurance, no pre-payment is required.

### **Test Panels** (Pricing reflects discounts for multiple tests)

Name & Description	CPT coding	Price
<b><i>Bartonella spp</i> ePCR™ Triple Blood Draw + IFA Panel, IgG (<i>B henselae</i>, <i>B quintana</i>)</b>	87040, 87471-59, 87471-91, 87150 (billed on each date of service), 86611, 86611-91	\$970
<b><i>Bartonella spp</i> ePCR™ Triple Blood Draw</b>	87040, 87471-59, 87471-91, 87150 (billed on each date of service).	\$864
<b><i>Bartonella spp</i> ePCR™ Single Blood Draw</b>	87040, 87471-59, 87471-91, 87150	\$480
<b><i>Bartonella spp</i> ePCR™ Fresh/Frozen Tissue</b>	87075, 87471, 87150	\$435
<b><i>Bartonella spp</i> ePCR™ Non-blood Fluid</b>	87075, 87471, 87150	\$360
<b><i>Bartonella</i> IFA Serology Panel, IgG <i>B. henselae</i>, <i>B. quintana</i></b>	86611, 86611-91	\$225
<b><i>Borrelia burgdorferi</i> ELISA IgM/IgG Panel, reflex to Western Blot Panel, IgG/IgM (Lyme Disease) *</b>	86618, 86617	\$275
<b>Tick-borne Disease PCR Panel <i>Babesia spp</i>, <i>Ehrlichia spp</i>, <i>Anaplasma spp</i>, and <i>Rickettsia spp</i>.</b>	87798-91 x4	\$590

Test turnaround is 3 weeks for ePCR testing and 2 weeks for serology and PCR testing. Positive PCR results are confirmed by DNA sequencing and species identification.

\* Reflex testing occurs when an initial test result meets the pre-determined criteria of positive or equivocal. Initial charge is \$80 with an additional charge of \$195 if the reflex test is performed.

**DNA Tests (active infection)**

Name & Description	CPT coding	Price
<i>Anaplasma</i> spp PCR	87798	\$220
<i>Babesia/Theileria</i> spp PCR	87798	\$220
<i>Bartonella</i> spp PCR (paraffin-embedded tissue only)	87798	\$295
<i>Ehrlichia</i> spp PCR	87798	\$220
<i>Rickettsia</i> spp PCR	87798	\$220

Test turnaround is 2 weeks for PCR testing. Positive PCR results are confirmed by DNA sequencing and species identification.

**Antibody Tests (prior exposure)**

Name & Description	CPT coding	Price
<i>Bartonella henselae</i> IFA Serology, IgG	86611	\$125
<i>Bartonella quintana</i> IFA Serology, IgG	86611	\$125
<i>Borrelia burgdorferi</i> ELISA, IgG/IgM (Lyme Disease)	86618	\$80
<i>Borrelia burgdorferi</i> Western Blot, IgG/IgM (Lyme Disease)	86617	\$220

Test turnaround is 2 weeks for serology testing.
