T800

FULLY RUGGED 8.1" TABLET

Large 8.1" LumiBond® sunlight readable display

Quad-core Intel® Pentium® N3530 2.16 GHz processor

MIL-STD 810G and IP65 certified

802.11ac next generation WiFi

Unique SnapBack add-ons

Front HD camera / rear 8MP auto focus camera

Industry-leading bumper-to-bumper warranty

Optional integrated 4G LTE broadband wireless[2]

Large 8.1" Display.

The T800 features a large 8.1" display that utilizes our revolutionary LumiBond technology to achieve a display that is more readable, and offers better contrast and more crisp colors than any other rugged tablet display. By bonding the display glass with the touch panel and LCD, we've created a single pane that is both more durable and readable.
SnapBack Add-ons.

We designed the T800 for expandability with our unique SnapBack add-ons. Integrated as an extension to the T800, you can add an extended battery or 2-in-1 SmartCard and RFID reader, or 2-in-1 SmartCard and Magnetic Stripe reader. They easily snap right on or off, no tools necessary.

Blazing Fast Wireless.

Every T800 includes the latest 802.11ac WiFi for data transfer speeds up to 3X faster than 802.11n products. Designed to be used in the field, your T800 can be configured with 4G LTE cellular data with an auto tunable 8-band antenna capable of quickly switching between bands.

Quad-Core Performance.

Inside the T800, we packed an incredible amount of power and technology. Built with the latest Quad-core Intel Pentium N3530 2.16 GHz processor, the T800 can remain running at near full speed when other tablets processors would otherwise throttle back performance to avoid overheating.

Vehicle Ready.

For vehicle deployments, the T800 can be configured with triple pass-through antenna ports allowing you to simultaneously connect high-gain GPS, WWAN and WLAN roof mounted antennas.

Bumper-to-Bumper Warranty.

Accidents happen. Only Getac offers bumper-to-bumper coverage standard on every T800 rugged tablet.
