Standard and optional features vary depending on purchased configuration. Specifications subject to change without notice.

Battery life testing conducted under MobileMark 2007. Battery performance will vary based on software applications, wireless settings, power management settings, LCD brightness, customized modules and environmental conditions. As with all batteries, maximum capacity decreases with time and use and may eventually need to be replaced by a Getac service provider. Battery life and charge cycles vary by use and settings. 30 hours rated battery life rating requires optional media bay 2nd battery.

<sup>1</sup> Testing conducted by Getac September 2013. Performance tests are conducted using specific computer systems and reflect the approximate performance of the B300 rugged notebook at the time of testing.

<sup>2</sup> Data plan required. Cellular data is available in the US on Verizon Wireless and AT&T networks. LTE is available in select markets. Check with your carrier for details. 4G LTE configuration must be ordered at time of purchase.
