Strong Sunlight Viewable Display.

To increase the screen durability and provide greater sunlight readability, the ZX70 features an IPS display with LumiBond optical bonding and also uses special damage-resistant Gorilla® Glass. Making the ZX70 both tough and scratch resistant to withstand the abuses of working in extreme conditions.

Built to Survive.

The ZX70 was designed from the inside out to be sleek, thin and tough. Only Getac manufacturers rugged tablets down to the chassis. The ZX70 is specifically engineered to be protected against drops, shocks, spills, vibration and more.

Dual Camera

They say a picture is worth a thousand words and the ZX70 provides two features to insure you capture the necessary video or images while you're in the field. With its FHD webcam and 8MP auto-focus camera, you can be sure your data is documented accurately.

Design to Capture.

With both barcode scanning and RFID reading capabilities, the ZX70 is the ultimate device for capturing data.

Fast and Accurate GPS.

The dedicated U-blox GPS chipset in the ZX70 provides fast and accurate location information. The ZX70 is the perfect device for anyone using GPS data in the field.

Bumper-to-Bumper Warranty.

Accidents happen. Only Getac offers bumper-to-bumper coverage standard on every ZX70 rugged tablet.

* For storage, 1GB = 1 billion bytes; actual formatted capacity less.

** Battery performance will vary based on software applications, wireless settings, power management settings, LCD brightness, customized modules and environmental conditions. As with all batteries, maximum capacity decreases with time and use and may eventually need to be replaced by a Getac service provider. Battery life and charge cycles vary by use and settings.

† Weight varies by configuration and manufacturing process.

†† 3 year bumper-to-bumper warranty standard. For warranty terms and conditions visit www.getac.com
