# Introducing THE WHITEE PATCH™

## ACCELERATED HEALING

The WHITEE Patch™ is a topically applied natural herbal product. It is made of a scientifically designed herbal mixture attached to the highest grade of latex-free, hypoallergenic medical grade adhesive tape. Herbal ingredients are absorbed through the skin, accelerating the healing for joint and back pain caused by osteoarthritis, spinal stenosis, spinal disc injuries, pinched nerves, cartilage injuries, and more.

The patch speeds up recovery by increasing blood flow and lymphatic circulation at the site of injury. It also extracts harmful fluid from the swollen joint or disc, and enables the body to perform other key biological processes necessary for tissue repair.

### ✓ OSTEOARTHRITIS

The Wei WHITEE Patch™ (in combination with our high-quality herbal formulation, LC Balancer™) can effectively address Osteoarthritis. The program typically lasts three to six months, depending on severity. The WHITEE Patch™ helps to stimulate the regeneration of thinned cartilage, while the LC Balancer helps your body absorb and circulate the herbs.

### ✓ SPINAL STENOSIS

Spinal Stenosis can result from bone spurs, disc issues, arthritis, or spinal injuries. This wellness program typically lasts around three months, and incorporates three of our all natural herbal products: the WHITEE Patch™, LC Balancer™, and Brown™, which work together to help resolve and stop the formation of stenosis and bone spurs.

## CONDITIONS
