Prices are F.O.B. mill, excluding freight

Lumber markets were a mixed bag this week. While SYP dimension remains weak with wet weather impacting Texas, other species firmed up. Talk of more mill curtailments were common from both mill and secondary traders. OSB saw upward price movement last week in western markets in particular, and the momentum, while largely secondary driven, continued this week as prices rose again. Watching closely this weekend to see whether the Nuggets or the Blazers earn the honor of sacrificial lamb for Golden State starting next week.
