Composite Average	424	03	607

Prices are F.O.B. mill, excluding freight

Traders returning after the holiday shortened week found most items moderating. After a very strong run DF prices are leveling off and SPF has begun to correct down. SYP is continuing to coast upward for now. OSB trading was more lackluster than previous weeks except in the West where curtailments kept pressure on buyers. All eyes are on the Gulf of Mexico where a developing system threatens to bring large amounts of rain to an already saturated South.
