Activity lessened slightly during the holiday shortened week, but the market continues to be in the mode of undersupply. All dimension species saw price increases, and panels continued to trend up as well, albeit it at a slightly lesser pace. Distributors across the country are still running lean and are struggling to build inventories. Treaters are still having trouble keeping up with demand. If there's relief coming it's weeks away at best. Projects that are not planning ahead are paying the price.
