Prices are F.O.B. mill, excluding freight

The market this week reminds me of a dingy, rusted sign I saw in a mechanics shop years back that said "The beatings will continue until morale improves". This market is just no fun for anyone who isn't a manufacturer. Mills continue to push the pricing envelope to new record highs as supply remains ridiculously tight. All species of lumber are impacted. All panels are impacted. Apparently wood is now a rare commodity. This silliness will continue until the money for projects dries up. We are nearing 100% increases - or doubling of prices - since mid April. 2020 is one mean monkey!
