Prices are F.O.B. mill, excluding freight

The tone coming out of Labor Day weekend was decidedly more subdued, with many in the industry predicting that the market may be at or near a peak. Numerous forest fires in the west may delay any pending drop in lumber prices, as video of RSG's log deck ablaze at their Molalla, OR mill drew more concern around lumber shortages. Futures appear to show the money is leaning toward lower prices in November. OSB and plywood remain high and tight for the time being.
