What went up has definitely come down. Lumber and studs remain in correction mode, surprising many mills and traders that a level has yet to be found. Fires in the west have thus far failed to be the impetus for a bounce. OSB cracks widened, with a mix of available quote levels in the market place - anywhere from "make offer" to denial that prices have dropped. Plywood remains soft in both fir and yella pine. July futures dipped below 500 today as the contract closed and rolled to September.

This business is not for the weak of heart!
