The market shows a quieter tone in general as Thanksgiving gets closer. Concern over delays out of the Pacific Northwest grew with the news that trucking, rail, and the port of BC are all in disarray over torrential rain last week. This could tighten supply up for those using SPF, DF, and plywood from this producing region. Housing start numbers for October show multifamily starts and permits up, with MF homes currently under construction at it's highest level in more than 47 years. Single family permitted starts that are delayed due to shortages of labor and and materials are at a record high. When the log jam breaks, prices will skyrocket. Stay ahead of it!
