

## **IDS International Announces ISO 9001:2015 Certification**

Arlington, VA – April 20,2020 (PRESS RELEASE)

IDS is delighted to have been awarded ISO 9001:2015 certification, an internationally recognized standard that ensures our products and services meet the needs of customers, through an effective quality management system.

IDS's decision to work towards ISO 9001:2015 accreditation demonstrates our commitment to continually improving our products and services. To become ISO 9001:2015 certified, the IDS team lead by Constance O'Brien, Chief Operating Officer, underwent an extensive company-wide audit that included quality management system development, a management system documentation review, pre-audit, initial assessment, and clearance of non-conformances.

ISO is one of the most rigorous and well-regarded standards in the world. IDS was audited by SRI and presented with our certificate in April 2020. Gaining ISO 9001:2015 reinforces IDS's relentless focus on creating industry-leading products and services, measured against global benchmarks of industry excellence.

"This achievement is the result of years of dedication to continuous improvement, streamlining processes, and the ultimate goal of exceeding our customers' expectations," said Constance O'Brien, Chief Operating Officer. "Along the way we have exceeded our own expectations. This certification is not easily achieved. I am so proud of what our team has built. We have set ourselves up for years of future success."
