## ABOUT IDS

Since 2006, IDS International Government Services LLC (IDS) has offered Services focused on providing proactive solutions to reduce and prevent issues that affect service in the most challenging deployment applications. An experienced prime contractor, IDS has successfully executed large mission critical contracts for clients including the US Army Corps of Engineers (USACE), the Department of Defense (DOD), Department of State (DOS), and US Agency for International Development (USAID). Combining operational expertise with an intimate understanding of today's greatest challenges, we bring our customers the solutions required for success in a complex and multidimensional world.

## COMPLETE FACILITIES MAINTENANCE AND MANAGEMENT SERVICES

IDS's Complete Facilities Maintenance and Management Services include management operations, labor, materials, supplies, tools, equipment, spare parts, logistics, security, transportation, contractor life support, scheduled and unscheduled maintenance, operations and maintenance (O&M), and repairs. IDS has executed performance-based O&M programs to maintain critical facilities, buildings, and installed systems (including ancillary equipment and infrastructure) that delivers sustainable services to building occupants and achieved the buildings intended purpose. IDS's O&M services provide for life sustaining facilities including power generation and electrical distribution infrastructure, wastewater treatment plants, water treatment plants, building systems, and heating, ventilation, air conditioning, and refrigeration (HVAC&R) systems.

## DEPLOYMENT LOGISTICS SERVICES

IDS offers a Deployment Logistics Services capability that supports operational readiness and sustainment worldwide. Our highly skilled staff is comprised of logistics experts, experienced in contingency planning; identifying/utilizing regional or global resources; integrating public/private sector resources; inventory/property planning, movement, storage; end-to-end industrial relocation/expansion services. This includes project/asset/construction management; space planning and project integration and implementation; pre-positioning assets, facilitating customs processing/accountability; and deploying communications and logistics systems to permit rapid deployment and management of supplies and equipment.

## LOGISTICS TRAINING SERVICES

IDS's Logistics Training Services provide customers with trained and equipped supply chain and warehouse clerks, logisticians, contracts professionals, and quality assurance technicians, as well as repair and maintenance technicians capable of managing and maintaining critical infrastructure and facilities at peak efficiencies. Training addresses every aspect of the day-to-day activities needed to ensure buildings and installed systems perform their intended functions, including operating schedule development that provides for normal checks, as well as service and maintenance performed before, during, and after operation in accordance with manufacturer recommendations.

## TRAINING

IDS is one of the U.S. military's leading training partners in interagency and whole-of-government approaches to disaster response, humanitarian assistance and protection, stability operations and reconstruction. Our curriculum is informed by the collective experience of our seasoned trainers - professionals who possess recent Department of Defense (DOD) Department of State (DOS), US Agency of International Development (USAID), Central Intelligence Agency (CIA), U.S. military, United Nations (UN), non-governmental (NGOs), or other experience in conflict or disaster zones. IDS's trainers provide

support to and mentor military and civilian leaders and their staffs on interagency principles, capabilities, and objectives.

### CYBER & SOCIAL MEDIA TRAINING

IDS Social Media subject matter experts (SME) and Digital Teams build and manage websites, blogs, and social media, networks, trends, and posts that replicate an immersive real-world Internet. Our SMEs provide highly specialized and operationally relevant digital simulations of operating within the complex, non-traditional capabilities and requirements of the digital domain. Our teams are responsible for building content, managing curriculums, and developing scenarios and scripts for digital engagement. We build and manage a robust custom environment of real-time Decisive Action (DA) injects, websites, bios, cyber TTPs, tweets, pictures, videos, propaganda, and digital network traffic. These include replications of regional hostile groups, “host”-nation governments, political activities and parties, interest blogs, international news, Internet radio, the U.S. State Department, USAID, and International Organizations and NGOs. Through these exercises, IDS prepares our nation’s military with multi-domain training and knowledge.

### ASSESSMENTS, MONITORING, EVALUATION, STABILITY AND LEARNING SERVICES

IDS provides Assessments, Monitoring, and Evaluation services by leveraging our global network of highly trained researchers and specialists to assess the impact and return on investment of implementation of enhanced systems of accountability focused on security cooperation activities around the world. We provide services that help our customers make better decisions and communicate results within their community of practice. IDS’s Monitoring, Evaluation, and Learning (MEL) capabilities support the oversight of customer activities intended to advance U.S. strategic interests through the design and implementation of sophisticated analytic protocols, which we often implement in conflict environments. We leverage our understanding of global hotspots, innovative technologies, logistical capacity, cultural expertise, and networks of local national researchers to ensure that customers are meeting their goals on behalf of American taxpayers.
