Name.....Firearm SN.....

All firearms to be cerakoted must be accompanied with a magazine and a box of ammo for function testing.

Cerakote is designed to be applied at one one thousandths of an inch thick (0.001”) and consequently will **NOT** fill any scratches, dings, pitting or any other blemishes on your firearm. However, these can be filled at an additional charge upon request.

All non-visible/internal parts will **NOT** be coated to guarantee the function and operation of the firearm.

Dovetailed and tritium sights will **NOT** be coated due to the stresses of coating and installation.

All prices include disassembly and reassembly. \$25 will be deducted from the full-cost if the firearm arrives disassembled. However, if any further disassembly is required after the firearm is dropped off, you will be charged the full price for disassembly. All disassembled firearms must be accompanied by a complete typed and printed inventory parts list. LFI will not guarantee the coating is damage-free nor guarantee the function of the firearm if you choose to assemble or disassemble yourself. In addition, LFI will not reassemble the firearm if you disassemble it.

I am voluntarily requesting that these activities take place with the full knowledge of the dangers involved, which include but are not limited to: mechanical failure, damage to personal property, bodily injury, and/or death. I hereby agree to accept and assume any and all risks associated with this service.
