LSAT Reveals the Truth

The **LSAT STATEMENT ANALYSIS** technique is a unique, highly-relevant and validated technology that answers the most puzzling questions investigators are faced with, even in their most challenging cases. Our students not only become highly proficient at detecting deception, but also learn to use the lie against them to gain confessions. We take a very practical approach to teaching students how the deceptive mind works and to recognize the language strategies people use to lie. LSAT reveals:

- If they did it
- When they did it
- Why they did it
- How to use their own words to compel a confession

Learn more about LSAT, view Daily Training Schedule, and see example analyses at our website: www.LieAnalysis.com

About Our Training

Since 1996, LSAT has been recognized as the most trusted provider of statement analysis training in the country. LSAT is a thorough study of the technique, not a superficial 8-hour class. The first four hours of class lay the foundation for linguistic analysis. 18 class hours consist of hands-on, in-depth examination of the language used by truthful and deceptive people and how that language is used to assess their credibility and elicits additional information and confessions. Students analyze seven statements bringing them to of skill level that allows for the effective application of LSAT in criminal investigations.

Training Topics:

- Identifying Deceptive Language
- Psychology behind deceptive thought and language
- Examining the statement as a crime scene
- Scoring and final assessment of language evidence
- Analysis-driven investigation strategies
- Analysis-guided interview & interrogation tactics
- Analyses of 7 statements from actual criminal cases.

"It was the best training I've had in 15 years. Every officer should learn this"

"This should be required training for all officers"

"Incredibly thorough instruction"

"Relevant & challenging with a great touch of humor"

"This was the best training I've had in 21 years of police work"
