

MY COVID-19

JOURNAL

Purpose of this Journal

The Loveland Museum is wondering how children are dealing with the COVID-19 pandemic. They have a very unique perspective on what is going on. People are coming together, lending a helping hand, dealing with big changes to normal daily life and sharing new experiences that can be both scary, but also unexpectedly joyous. The idea of this journal was borrowed from Long Creations, but we wanted to design our own pages to give kids a way to reflect on this time and learn from it in the future, or possibly donate their stories to the Museum.

This journal can be used as...

- A way to pass the time at home, while we all “social distance”
- A time capsule that you can bury in your yard or garden and have someone find in the future
- A school project
- A way to journal your experience and read when you are an adult
- Submit to the Museum for our collection of COVID-19 stories (find out how you can do this at the end of the journal)

How are you feeling?

Our lives have changed and it's alright to feel mad, sad, frustrated, scared or most anything else right now! How do you feel?

I FEEL...
