

WIRELESS audio everywhere

An abstract graphic at the bottom of the page features several overlapping, curved bands in various shades of blue and dark blue. The bands create a sense of depth and movement, with some appearing to wrap around others. The text 'Custom Wireless Audio Products' is written in white, sans-serif font across the middle of these bands.

CUSTOM WIRELESS SOLUTIONS

There's wireless. And then there's **whole house wireless** for professional installers. A true wireless **solution** is more than just a streamer. Real wireless for the **custom market** takes all of the expected features and adds new dimensions of control and audio integrity. Packaged in a series of interconnectable devices worthy of the audio everywhere label. Now that's **XStream™**.
