Updates on Urinary Obstruction

By Michael Becker, DVM, DACVECC

Dr. Mike Becker was born and raised in Phoenix, Arizona and attended the University of Arizona during his undergrad years. After a few years there, Mike realized he could put his passion for animals and love of science together and become a veterinarian! He went to the University of Illinois for vet school and moved to California to pursue his dreams of becoming a critical care specialist.

Mike did his rotating internship, specialty internship, and residency at a busy specialty practice in Los Angeles. Mike then joined the ACCESS team in 2015, working in the emergency and critical care department in LA. Outside of the hospital, Mike enjoys being outdoors and exploring all that California has to offer. At home, he finds time to relax with his four dogs, four cats, and wife.
