

CodeWorx

Computer Programming

Coding is Awesome! Learn the language of computers and develop real-world skills!
Coding – the language of the future, the power to create tomorrow

Computer Programming

Learn the skills of software developers!

- Classes meet 1 hr, 15 minutes once a week
- Level up and learn more advanced concepts
- Use modern approach developed by MIT
- Learn real programming techniques
- Share online w/family & friends
- Fun atmosphere!

CodeWorx Computer Programming classes bring real-world learning to students. Solve computing problems that real software developers use. Learn the language of Code and master skills in our CodeWorx programs! Get an early advantage.

Connect. Create. Code!

Tuition is monthly.

Computer Programming: Junior - Coding is the new literacy! Learn block-based programming. Create animations & videos to share with friends & family! Create storylines to improve literacy and communication skills. Fun & creative: learning to improve thinking skills & confidence in young children. **Grades K – 3**

Computer Programming: Intermediate & Advanced - Learn coding concepts, such as sequences & loops, using a cutting-edge approach developed by MIT. This process-based approach allows students to think, reason, and work together. As students level up, they learn specific concepts such as lists, strings and conditions while working with more advanced syntax-based language software. **Grades 1 – 8**

Computer Programming: Game Design* – Design games in each class while working in a self-paced, engaging and collaborative environment. Learn how to program retro games and make your own! **Don't just play games, create them!**

*Must have completed Intermediate class Levels I, II

Grades 3 – 8

One of our most popular programs! Register early at mindworxlearning.com

MINDWORX Campus Hours

Mon – Fri: 9:00 am -12:30pm
2:30pm – 7:30pm
Saturday: 10:00 am – 3:00pm
Sunday: CLOSED
