

Eastern Gateway Community College NEW Fire Science Degree

FREE for OAPFF members through our Higher Education Initiative

EGCC's online Fire Science program is for those seeking enhanced skills and a broad spectrum of knowledge in the field of fire science.

Developed in partnership with the Ohio Association of Professional Fire Fighters, EGCC's program draws on their extensive experience and leadership in the fire service. As the respected state Fire Fighter union representing over 12,000 professional fire fighters in Ohio, they know firsthand what is necessary in the world of fire and emergency operations, where conditions change quickly as does the knowledge needed to lead the response.

Grounded in contemporary curriculum, our online Fire Science program teaches students the latest industry principles, theory, and best practices.

Some of the topics you'll cover in our fully online program are fire safety and prevention; building construction for the fire service; community relations; leadership; and administration.

Learn More

Fire industry professionals enrolling in the program who have their State of Ohio Fire Fighter II certification may receive up to 15 credits toward their Fire Science degree. Your advisor will help determine credit for other certifications as well.

Members and family members of the Ohio Association of Professional Fire Fighters can earn this degree with no out-of-pocket cost through our Free College program.

Call 888-590-9009 or Visit OAPFFeducation.org

Please talk to our transfer coordinator about whether you have additional credits you'd like to transfer to EGCC!
