

Olympus Technical Services, Inc., a Montana-based, employee-owned Environmental Consulting and Environmental Field Services firm specializing in hazardous waste site/environmental remediation, mine reclamation, environmental engineering, and emergency spill response is seeking an entry to staff level scientist/engineer to join our growing Billings, Montana office. We offer competitive salary and benefits packages, professional and entrepreneurial growth opportunities and a diverse array of challenging projects.

The ideal candidate should possess the following:

- Experience with the Montana Department of Environmental Quality (DEQ) Leaking Underground Storage Tank (LUST) program and projects;
- Significant experience managing environmental remediation projects;
- Strong communication and writing skills;
- Extensive field team leadership experience and ability and willingness to mentor junior staff;
- Ability to manage and coordinate multiple subcontractors and employees on-site;
- Possess familiarity or applied experience in the following areas:
 - Local, state and federal permitting;
 - Remediation technologies, design and implementation;
 - Phase I/II ESAs and related investigations;
 - Erosion and sedimentation control inspections and planning; and
 - Environmental sampling of soil, water and air media.

Minimum Qualifications:

- BS in geology, chemistry, engineering, or related discipline;
- Environmental remediation project experience;
- Interest and ability to interact with clients and project teams;
- Strong reporting and QA/QC skills;
- Excellent computer skills, including proficiency with MS Office, GIS, CAD, and GPS;
- Excellent technical writing and communication skills; and
- Willingness to travel as project requires.

Preferred Qualifications

- PE/PG or other professional license or registration;
- Advanced degree in related field;
- Interest or experience in environmental emergency response;
- Related industry licensure including:
 - Montana Well Constructor License
 - Certified Industrial Hygienist
 - Certified Environmental Trainer
