

FOR IMMEDIATE RELEASE

VPM PRODUCTS NOW TO BE OFFERED IN A TURNKEY FORMAT FOR INVESTMENT ADVISORS

SCOTTSDALE, Arizona (September 15, 2014) - VPM Partners announced today an agreement with Peak Capital Management (PCM) to license and redistribute VPM driven strategies into the advisory community. The initial models to be released will be the PCM Global ETF Strategy and the PCM Multi-Cap Equity, an individual stock strategy.

The agreement allows PCM to offer fully disciplined model portfolios utilizing the VPM technology. VPM Partners has been offering this technology to the investment advisory community for 16 years. Adherence to the VPM process has proven to be capable of generating significant returns in all market conditions; however, a lack of strong adherence and discipline can result in a dilution of the processes and result in lower total returns. By offering fully disciplined strategies to the investment community, a potentially better solution is presented for both the investment advisor as well as the individual client.

"We are very excited about the opportunity to work directly with PCM to ensure that the process we have developed over a 20 year period is utilized correctly in order to enhance and protect the client's capital returns. This partnership includes the ability to consult and certify that the process is being delivered properly as a disciplined, repeatable, turnkey solution," said VPM Partners CEO Bob Kendall.

PCM has been a VPM Partner's client for nearly 6 years and we are excited about the opportunity to work with them at this level. PCM has demonstrated the ability to adhere to and deliver a VPM disciplined model portfolio.

Comment from PCM:

"We are excited to make these strategies available to the advisor community through a strategic partner like VPM Partners. Our focus is on delivering portfolio management solutions to advisors who are committed to protecting and growing their clients' wealth. The PCM Global ETF Strategy and PCM Multi-Cap Equity Strategy demonstrate an ability to capture broad market gains with a very low historical beta." - *Brian Lockhart, Chief Investment Officer of Peak Capital Management (PCM)*

About VPM Partners:

VPM Partners has been in business since 1998 offering the virtual portfolio manager product to the investment community. We've seen tremendous growth over the years and now are helping hundreds of advisory firms managing in excess of \$20 billion. Our strategy Participate, Protect, and Grow or PPG has demonstrated the ability to avoid extreme risk while also allowing to appreciate during positive markets. VPM's technology is able to locate and follow trends on over 18,000 individual financial instruments. The technology has been proven over the test of time to be able to consistently achieve above average returns while protecting capital on the downside. While past performance is not necessarily an indication of future results, there is a long history of success behind the company.

About PCM:

Peak Capital Management, LLC (PCM) is a firm with a passion to deliver exceptional returns through tactical navigation of the financial markets. PCM manages multi-disciplined strategies and provides research and commentary for the investment advisory community.
