NESPRESSO®

EXCELLENCE IN THE SMALLEST DETAIL

Offering a coffee is a daily gesture. However, when this coffee is one of absolute perfection, it expresses all the consideration that you have for your customers and your employees. This daily gesture then carries a message: your company recognizes quality.

THE RIGHT MACHINE IN THE RIGHT PLACE

Building on our success in the private sector, *Nespresso* also offers a system that meets the specific needs of its business customers. This system of innovative designs and high-tech machines, selection of 10 Grand Cru coffees and tailor-made services integrates perfectly into your business environment.

It allows offices, hotels, restaurants and shops to offer their customers, business associates and employees the best quality coffee whenever, wherever.

#1

THE HIGHEST QUALITY COFFEE

An exceptional coffee for all your business needs. *Nespresso* offers a rich selection of Grands Crus specially created for the business environment that guarantees a perfect coffee to even the most demanding of connoisseurs, cup after cup.

NESPRESSO AAA SUSTAINABLE QUALITY™ PROGRAM

Combining *Nespresso* coffee and quality expertise with the Rainforest Alliance's knowledge and experience in sustainability and best farming practices, the *Nespresso* AAA Sustainable Quality™ Program was launched in 2003 to protect the future of the highest quality coffees required for *Nespresso* Grands Crus and secure the livelihood of the farmers who grow them while protecting the environment. The AAA Program specifically links quality and sustainability through a program of integrated coffee farm management practices for long-term social and economic value.

In 2014, building on our Creating Shared Value Approach, *Nespresso* set an ambition entitled "The Positive Cup" to provide the highest quality and most sustainable portioned coffee worldwide. *Nespresso* will invest CHF 500 million over a period of six years (2014–2020). The Positive Cup incorporates ambitious goals. By 2020 we aim to:

- Source 100% of our permanent range of Grand Cru coffees sustainably through the *Nespresso* AAA Sustainable Quality™ Program
- Further improve farmer welfare through the expansion of the AAA Farmer Future Program
- Source 100% of our virgin aluminum in a sustainable way, compliant with the new Aluminium Stewardship Initiative
- Further reduce the company's carbon footprint through an extensive agroforestry program which includes planting 10 million trees in and around AAA coffee farms.
