BREATHING INTO YOGA

Breathing Into Yoga is not a style of yoga but rather an approach utilizing its tools. This technique, known as viniyoga, uses Asana (postures) and Pranayama (breath work) principles. Through stretching and contracting we find that repetition increases circulation making our muscles stronger and more flexible. This prepares us for holding postures. Most postures are suited for all levels of students and can be modified.

CANDLELIGHT INScape YOGA

This class blends stretching, Pratanan (gentle, simple movements) and restorative poses with a focus on relaxing into the deepest layers of the body. Explore soothing and well-supported poses using soft blankets, blocks, straps, and bolsters, to open the body gently, yet deeply. Improve joint flexibility, free stagnation in the muscle tissue, lubricate the joints and foster a quiet, meditative state. All levels are welcome, no previous experience necessary.

CORE ASANA

The core is vital for optimal health, meaning more than just having 6-pack abs. Yoga focuses on the navel center, using the body, breath, and mind. Core Asana focuses on: increasing length of the exhale, twisting & forward bends to connect with your center, & advanced breathing techniques to create new energy & strength at the core. Create a richer experience at the gut & a sense of power from within.

DEEP STRETCH

Participants will love this yin/restorative practice of yoga that is open to all levels. We live in a world that is very yang. ZEN IN THE ART OF TAI CHI

Tai chi, which originated in China as a martial art, is a mind-body practice in complementary and alternative medicine (CAM). Tai chi is sometimes referred to as "moving meditation"—practitioners move their bodies slowly, gently, and with awareness, while breathing deeply.

BREAKDOWN OF YOGA/PILATES LEVELS

Level 1: Build your foundation.

The basics and fundamentals of postures are introduced. Learn the process of proper alignment in the poses, breathing techniques, and build confidence in your practice. These classes are designed for both students with no experience (*beginners*) as well as the seasoned practitioner.

Level 2: Experience needed.

Level 2 classes start to introduce more intermediate to advanced poses to help take your practice to a new level. Classes generally have a "flow" and "rhythm" to encourage the evolution of one's practice as *moving meditation*. They are more vigorous and challenging to help engender mind/body vitality.

Level 3: The ultimate experience.

For advanced practitioners that need very little demonstration of poses. These classes will be mostly intermediate and advanced poses and have a vigorous pace. Take these classes only if you have a serious degree of knowledge, stamina and flexibility. Level 3 classes are great for students looking for the highest degree of difficulty.

Please note: Classes highlighted in yellow are on the "watch list." These classes have had low participation and are in jeopardy of being CANCELED. In order to make the most efficient use of our studio space, we may discontinue classes if there are under 10 participants consistently.
