BREATHING INTO YOGA

Breathing Into Yoga is not a style of yoga but rather an approach utilizing its tools. This technique, known as viniyoga, uses Asana (postures) and Pranayama (breath work) principles. Through stretching and contracting we find that repetition increases circulation making our muscles stronger and more flexible. This prepares us for holding postures. Most postures are suited for all levels of students and can be modified.

CANDLELIGHT YIN YOGA

This class blends stretching, Pratyahara (gentle, simple movements) and restorative poses with a focus on relaxing into the deepest layers of the body. Explore soothing and well-supported poses using soft blankets, blocks, straps, and bolsters, to open the body gently, yet deeply. Improve joint flexibility, free stagnation in the muscle tissue, lubricate the joints and foster a quiet, meditative state. All levels are welcome, no previous experience necessary.

CROSS TRAIN YOGA

A 60 minute class that allows you to get your whole workout in one. The class starts with a 15 minute power yoga warm-up, followed by 20 minutes of high-intensity strength training and cardio using weights, bands and your own body. The class finishes with a 25 minute deep yoga stretch and meditative relaxation. Cross-Train Yoga is suitable for all-levels. The instructor will provide plenty of options to ensure your workout is safe as well as efficient.

DEEP STRETCH

Participants will love this yin/restorative practice of yoga that is open to all levels. We live in a world that is very yang. Using a more balanced approach, yin and yang complement and build on one another. This class is great to reduce stress, soothe and calm. The attention is placed on slow moving postures held for 1 - 5 minutes that will help with flexibility by targeting connective tissue and muscles.

ENLIGHTEN FLOW

An all levels Vinyasa class where you will move intuitively through breath and alignment cues. Learn specific breath techniques to help you with your practice as well as your stress response. Expect to explore different themes and ideas beyond the asanas in an effort to learn more about yourself. If you are new to yoga please allow time to acclimate. All yogis can use this class as an opportunity to heal, stretch, calm, and breathe.

YOGA MOBILITY

The goal is not to experience extreme flexibility but rather mobility (free movement) to allow you to train injury free, recover from long training sessions and increase your mind-body connection as we learn about how breath can influence so much of your movement. We, as athletes (anyone who intentionally moves their body), ask our bodies to perform regularly at a high level. Learn to give back to your body and show it some love!

YOGA THERAPY 101

Generally speaking, all yoga is therapy, but this class allows us to explore several styles and techniques to bring us into a more harmonious state of being. Incorporating yin, restorative, movement, breath-work meditation and more (not all in the same class) this time allows us to cultivate the mind/body connection at a slow nourishing pace.

YOUTH FIT - KIDS YOGA (ages 5-7) OR TWEEN YOGA (ages 8-11)

Through yoga activities kids will increase self awareness and self confidence. We will breathe, move, and imagine. Improve motor skills, develop heightened senses, foster emotional growth, build social skills, and foster creativity.

ZEN IN THE ART OF TAI CHI

Tai chi, which originated in China as a martial art, is a mind-body practice in complementary and alternative medicine (CAM). Tai chi is sometimes referred to as "moving meditation"—practitioners move their bodies slowly, gently, and with awareness, while breathing deeply.

SOULFUL FLOW

This all-level class moves to a slower rhythm, enabling the body to pause between poses. Space is created for self-inquiry, soul nurturing and longer savasana!

BREAKDOWN OF YOGA/PILATES LEVELS

Level 1: Build your foundation.

The basics and fundamentals of postures are introduced. Learn the process of proper alignment in the poses, breathing techniques, and build confidence in your practice. These classes are designed for both students with no experience (*beginners*) as well as the seasoned practitioner.

Level 2: Experience needed.

Level 2 classes start to introduce more intermediate to advanced poses to help take your practice to a new level. Classes generally have a "flow" and "rhythm" to encourage the evolution of one's practice as *moving meditation*. They are more vigorous and challenging to help engender mind/body vitality.

Level 3: The ultimate experience.

For advanced practitioners that need very little demonstration of poses. These classes will be mostly intermediate and advanced poses and have a vigorous pace. Take these classes only if you have a serious degree of knowledge, stamina and flexibility. Level 3 classes are great for students looking for the highest degree of difficulty.

Please note: Classes highlighted in yellow are on the "watch list." These classes have had low participation and are in jeopardy of being CANCELED. In order to make the most efficient use of our studio space, we may discontinue classes if there are under 10 participants consistently.
