**Rawlins Clinic telemed option available.**

Rawlins Clinic now has telehealth appointments available via Zoom through the rural health clinic. Telehealth appointments are virtual primary care visits from your home via a computer or smartphone. Not all appointments can be accommodated by telehealth. If you need an appointment, please call Rawlins Clinic at 626-3241 and ask if a telehealth appointment is an appropriate option for you.

As an added precaution for our patients and staff, Rawlins County Health Center and Rawlins Clinic staff will be wearing masks in the facility. If you have any questions regarding procedures in place at the hospital and clinic, please call Suzanna Koel at 785-626-3211 ext. 220.
