

# HOT MELT ADHESIVE FEEDER HF4

**Installs  
on *any*  
hot melt  
supply  
unit!**

## The Dynatec Advantage

- **Completely removes an operator from the hot melt supply unit area, thus preventing burns, adhesive spills and equipment contamination caused by overfilling of the adhesive hopper.**
- **Nozzle plugging and adhesive supply system contamination is virtually eliminated as the fully enclosed adhesive supply system keeps contaminants out.**
- **Less thermal shock to the hot melt system that results in balanced adhesive flow and ultimate adhesive savings.**

**ITW Dynatec™**
