

February 27, 2019

Registration, Evaluation, and Authorization of Chemicals (Reach) entered into force in June 2007 for the intent of protection to human health and the protection of the environment. REACH included adding six new substances of very high concern on January 15, 2019. However, Rubadue Wire Co., Inc. is a producer of “articles” and therefore must rely on suppliers for pre-registration.

REACH also addresses the continued use of 197 substances defined as “Substances with Very High Concern” (SVHC). Rubadue Wire Co., Inc. does not intentionally use or add any of the 197 (SVHC) above 0.1% weight and we have also confirmed with our raw material suppliers that these substances are not intentionally used or added above 0.1% weight.

Best Regards,

Mike Skorupa
Continuous Improvement Manager
Rubadue Wire Co., Inc.
