## The Power of Retinol

By Emily Oster, Retail Sales Manager

When it comes down to gold standards in the skincare regime, retinol is a product I knew I should be using but didn't know where to start. I think this is a source of confusion for many, as retinol products are so mainstream now. This is not surprising as the effects of consistent retinol use make it a skincare superstar. This vitamin A derived ingredient is well known for improving skin texture, clarity, and overall health. With this amazing power, however, comes responsibility. It's crucial to have the right retinol for your skin type in order to get a great experience with even better results.

At SRC we offer a total of seven options to choose from, depending on the products strength. Our SkinMedica Retinol Complexes are an amazing option for introducing your skin to retinol in a way that's comfortable. What makes the product shine is that the powerful encapsulated retinol is suspended in a silky moisturizer with antioxidants, so you get the best of both worlds. If you are a sensitive skin type or starting out dry, a low level Retinol Complex is perfect for you. It will provide smoother and fresher skin with no peeling or flaking in sight!

### Clarisonic Opal

The power to rejuvenate your eyes is now actually in your hands! The Clarisonic Opal Sonic Infuser is a breakthrough in eye care, infusing serum beneath the surface more effectively than manual application for younger looking eyes.

A palm-sized sonic infusion device, the Clarisonic Opal Sonic Infuser is specially designed to help build skin's resilience over time. By gently tapping the skin around your eye at 200+ sonic movements per second, the Opal Sonic

On the more corrective end of the retinol spectrum, we have the Obagi and Refissa tretinoins, which are prescription strength products. If you are searching for a product that will yield correction on a deeper level and at a faster rate, these are the products for you. The retinols work from the inside of a skin cell out upon each application to fully correct years of damage. Often when starting these products, your skin might go through a transition period while it adapts. No need to worry - that means it's doing its job! If you are a normal to oily skin type, or suffering from acne, hyperpigmentation, or noticeable fine lines and texture issues these tretinoins will deliver on true correction.

Whether you want to step up your current retinol game or need more help finding the right treatment for you, visit us at SRC Retail to get you on the path to perfect skin!

**This month, you can save on our in-stock retinol products, when purchased with a moisturizer. See our spring promotion below for more details and get started using a retinol today!**

Infuser maximizes absorption in a way that's not possible with your finger alone.

By using gentle sonic action to apply serum more evenly, deeply, and thoroughly beneath the skin's surface, the Opal will maximize the efficacy of hydrating skin care products and give your eye area a youthful lift.

Clinical Studies show:

- 4 weeks to improvement in elasticity

- a 2x greater increase in hydration around the eye

Consumer trials show:

- 95% report noticeably tighter, firmer skin

- 88% report reduction in appearance of fine lines and wrinkles

While supplies last, receive 20% off your Clarisonic Opal, as well as our Eyes on the Prize kit. This exclusive trial kit offers a variety of our most powerful eye products for firming, lifting, and brightening the eyes.

**20% OFF SALE PRICE:

## **Thank You for Donating to the World's Largest Baby Shower!**

Thank you to all who stopped by to attend the LIVE Jason and Alexis remote broadcast at Skin Rejuvenation Clinic on Wednesday, March 5th! Even through it was a bit too early for some of you (we had a 5:30AM start time!) we had a great turnout nonetheless. Jason and Alexis, as expected, provided lots of laughs throughout the morning. What a fun way to start the day!

We want to thank [Pinstripes](#) for bringing in a variety of scrumptious breakfast items for those watching the show.

Most important, thank you to all of those who brought in a donation to Tubman during the broadcast or in the weeks following. Our donation bin was literally spilling over with baby supplies for Tubman, a local

We find ourselves quite fortunate to be able to call Kathleen Maier our newest employee! Kathleen is our Skincare Product Educator and brings with her 8 years of experience in the cosmetic business, 6 of which were recently spent at Ridgeview Seasons Medical Spa in Excelsior.

Kathleen will work in our first floor retail store 5 days a week. Her vast knowledge on cosmetic services and products combined with her compassionate and kind nature, make her the ideal product educator.

Please welcome her to the Skin Rejuvenation Clinic team!

**Attention Post-Baby Mommies!**

If you have a post-baby pooch or tummy but do not want to undergo the downtime, risk or pain associated with a tummy tuck, consider CoolSculpting or ProLipo laser liposuction! The non-invasive CoolSculpting requires zero downtime and is perfect for subtle post-baby pooches. For more moderate tummies, ProLipo laser liposuction is an excellent option. With no general anesthesia required and just a few days of downtime, your results will start to reveal themselves. Dr. Mark has contoured thousands of body areas using his ProLipo technique. He is very skilled at contouring the most ideal shape for your body type.

Whether interested in ProLipo or CoolSculpting, start by booking a free consultation with Dr. Mark by calling (952) 920-6545.

(Above after photo only 1 week later)

When to apply: Apply approximately 3 drops onto clean skin in the morning before moisturizer and SPF.

**PRICE: \$135 + tax**
