

DISINFECTANT SURFACE WIPES

Durisan is the future in surface sanitation, offering a long-lasting, broad spectrum surface disinfecting wipe.

As schools continually face the threat of bacterial and viral infections and their impact on student & faculty health and attendance, it costs the U.S. education system \$675 million in lost revenue and 164 million sick days nationwide. Durisan provides a cost-effective, industry leading solution to surface infection control.

Durisan introduces a new broad-spectrum disinfectant surface wipe featuring long-lasting protection effective in the presence of 5% serum contamination. Traditional bleach-based and ammonia-based surface wipes have limited effectiveness and cause damage to surfaces, while Durisan disinfectant wipes offer active protection and will not harm surfaces. Durisan's bleach-free and ammonia-free chemistry provides an environmentally safe and non-irritating solution that actively eliminates 99.9% of bacteria and human viruses** including Norovirus, Pseudomonas, MRSA, E.Coli, HIV-1, HEP B (HBV), HEP C (HCV), Klebsiella, Staph, Salmonella, VRE, Herpes Simplex 1&2, SARS, Mold, Mildew, and Fungi; as well as animal viruses including Avian Influenza (H3N2 & H5N1), Canine Distemper, Feline Calicivirus, Newcastle's Disease, Pseudorabies.

The Durisan Difference: Disinfectant Surface Wipes

- Broad-spectrum disinfectant and bactericidal
- Eliminates 99.9% of bacteria in 15 seconds
- Long-lasting active disinfectant
- Kills mold and mildew
- Kills cold and flu viruses**
- Ammonia-free, Bleach-free
- Won't damage surfaces
- Fragrance-free
- Reduces cross contamination
- Made in the U.S.A.

EPA Reg. #6836-340-88919
EPA Est. #70930-PA-001

EFFICACY STUDY DATA

Durisan's broad spectrum disinfectant surface wipes kill 99.9% of bacteria and viruses** (**on non-porous surfaces)

Bacteria

<i>Acinetobacter Baumannii</i>	<i>Enterococcus Faecalis- Vancomycin-Resistant (VRE)</i>	<i>Legionella Pneumophila</i>	<i>Serratia Marcescens (Serratia)</i>
<i>Burkholderia Cepacia</i>	<i>Esherichis coli (E.coli, ESBL)</i>	<i>Listeria Monocytogenes</i>	<i>Shigella Dysenteriae (Shigella)</i>
<i>Enterococcus Faecalis (Enterococcus)</i>	<i>Klebsiella Pneumoniae (Klebsiella & NDM-1)</i>	<i>Pseudomonas Aeruginosa</i>	<i>Staphylococcus Aureus (MRSA, CA-MRSA, & VISA)</i>
		<i>Salmonella Enterica & Typhi (Salmonella)</i>	<i>Vibrio Cholerae</i>

Human Viruses

<i>Human Norovirus (Feline Calicivirus, Strain F-9)</i>	<i>Herpes Simplex Virus- Type 1 & 2</i>	<i>Influenza A (H1N1 & H7N9)</i>	<i>Rotavirus</i>
<i>Hepatitis B & C (HBV & HCV)</i>	<i>HIV-1 (AIDS)</i>	<i>Respiratory Syncytial Virus (RSV)</i>	<i>SARS Associated Coronavirus</i>
	<i>Human Coronavirus</i>		

Animal Viruses

<i>Avian Influenza Virus (H3N2 & H5N1)</i>	<i>Feline Calicivirus</i>
<i>Canine Distemper Virus</i>	<i>Newcastle's Disease Virus</i>
	<i>Pseudorabies Virus</i>

Fungi

<i>Candida Albicans</i>	<i>Mildew Algae</i>
<i>Mold</i>	<i>Yeast</i>

DIRECTIONS FOR USE

DISINFECTION / VIRUCIDAL: Wipe surface with wipe until surface is visibly wet. Use enough wipes to thoroughly wet surfaces. Allow surface to remain wet for 4 minutes. If surfaces are extremely dirty, clean first with another wipe before disinfecting. Discard used wipe in trash. Do not flush. Rinse food contact surfaces with clean, potable water after disinfecting. Do not use to disinfect dishes, glassware or utensils.

For *Candida albicans*, treated surfaces must remain wet for 8 minutes.

For Norovirus, and Rotavirus, treated surfaces must remain wet for 10 minutes. Let air dry.

MOLD AND MILDEW: Follow disinfection instructions. Repeat treatment every seven days, or more often if new growth appears.

SANITIZING: To sanitize hard, non-porous, non-food contact surfaces; wipe surface, using enough wipes to allow treated surface to remain wet for 15 seconds for *Staphylococcus aureus* [Staph] (ATCC 6538), *Klebsiella pneumoniae* (ATCC 4352), and *Campylobacter jejuni* (ATCC 29428). Let surface dry. For highly soiled surfaces, clean excess dirt first.

Antimicrobial Disinfectant Surface Wipes

- SA-ST8880-00** Antimicrobial Disinfectant Surface 6"x6.75" Wipes- 80 count
- SA-ST8616-00** Antimicrobial Disinfectant Surface 6"x6.75" Wipes- 160 count
- SA-ST8824-00** Antimicrobial Disinfectant Surface 6"x6.75" Wipes- 240 count
- SA-ST8865-00** Antimicrobial Disinfectant Surface 7"x14" Wipes- 65 count
