

# TOXICITY

## IN OUR WORLD

### Did you know....

**Air fresheners** are made from neurotoxic solvents and synthetic fragrances that can cause headaches, mood swings, memory loss, and chronic fatigue?

**Prepackaged lettuce** is washed in a chlorine solution twenty times more concentrated than that found in an average pool?

**Mouthwash** containing alcohol is associated with an increased risk of throat and mouth cancers?

**The artificial sweetener aspartame** breaks down into carcinogenic formaldehyde during storage in the body?

**Flea and tick control products** can expose people to pesticides five hundred times greater than the recommended safe limits?

**Microwave popcorn** contains a flavoring chemical that is a relative of paint stripper?

### A WAKE UP CALL...

**Pesticides** and other **chemicals** in animals and/or humans have been reported to **alter systems**.

Toxins are altering the development of the unborn leading to **miscarriages, stillbirths, birth abnormalities and delays in normal development**.

At least **two million children** **presently** suffer from developmental, **learning and behavioral difficulties**.

Each year the U.S.

**EPA** reviews an average of **1,700 new compounds** that industries are seeking to introduce. The 1976 Toxic Substances Control Act requires that they be tested for any ill effects before approval only if evidence of potential harm exists -*which is seldom the case for new chemicals*.

**The agency approves about 90 percent of the new compounds without restrictions. Only a quarter of the 82,000 chemicals in use in the U.S. have ever been tested for toxicity.**

*The ionCleanse® provides the most thorough and efficient way to cleanse and purify the body. It is more effective and faster than any herbal or fasting protocols.*
