To Whom It May Concern:

It is my pleasure to be able to tell you about the Texas Alternative Home School program and Dr. Shawn Clark.

I have been actively involved with Dr. Clark and this program for the past five years. Last year this program graduated over 400 students who might not have otherwise had a chance to receive a high school diploma.

The program offers a very valuable resource for us and for our students. Many of our students do not have any support at home, have parents who must work long hours in order to support their family, or the students must work themselves in order to help with the family's support. Therefore, school is not always the most important priority for them until they realize that they truly need a high school diploma.

For the majority of these students, a high school diploma is the highest level of education they will receive, and this program offers them this option, whereas, traditional school cannot meet their needs.

It is a pleasure to work with Dr. Clark and be able to give our students an option that more than likely would be a reality for them. To see the smiles on these students' faces when they receive this diploma is thrilling.

Sincerely,

Chesta Schneider, principal
