LIMITED WARRANTY

WALTON PureStyle Scone

## Your Design X Factor: Rivali

Rivali is a full overlay, slab door style with edgebanding—the process of covering all four sides with narrow matching or metallic strips for added strength and striking aesthetic. When crossed with a durable Laminate finish in your choice of complementary colors, this feature makes Rivali an unbeatable alternative to modern painted door styles.

Available finishes: Alabaster,  
Bluff, Brie, Limestone and Scone

RIVALI Laminate Alabaster

RAGLAN PureStyle Bluff

## STYLE THREEPEAT

Meet Kittrel, Walton and Raglan — again.

Allow us to continue the conversation we started earlier this year, and show you how we see it. Because as any designer will tell you there are simply some qualities that can't be put into words.

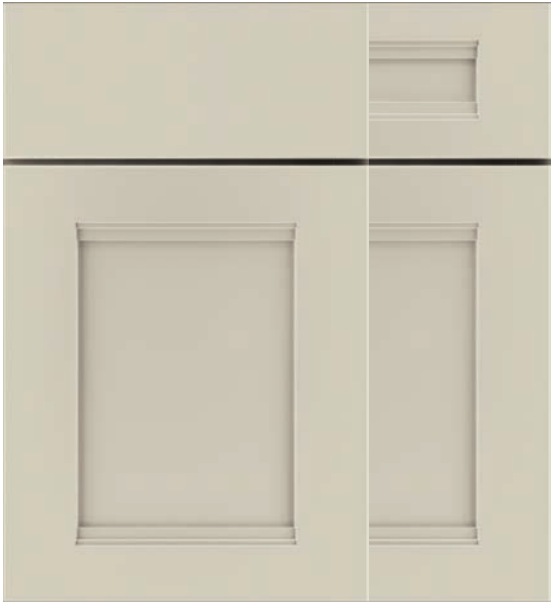

### Kittrel

Go bold at home with this classic flat panel profile in full overlay. Kittrel sports 3" wide rails and sturdy miter construction, and features a standard 5-piece drawer front. Available in PureStyle Laminate, Maple and Cherry.

### Walton

Changing things up, partial overlay Walton features a 2 1/2" rail width while maintaining transition-friendly design features, including a standard 5-piece drawer front. Available in PureStyle Laminate, Maple and Cherry.

### Raglan

Another 3" wide rail option with a stepped inside profile, full overlay Raglan shakes up traditional, Shaker design. A slab drawer front comes standard, with optional 5-piece available. PureStyle Laminate provides a trendy look without a steep price tag. Maple and Cherry options also available.

## Expanded Neutrals

We're hardly neutral when it comes to touting the advantages of PureStyle Laminate. True 5-piece construction with a velvety smooth finish and crisp, clean details. Consistent colors that won't crack or craze. Reassuringly sustainable and surprisingly affordable. Plus finish expansions on which to hang your thinking cap. The sky's the limit—not your budget.

## Rock Solid: Limestone

An ever fashionable basic, Limestone is now available on Kittrel, Walton and Raglan. Make it a cornerstone.

10

WALTON PureStyle Scone

# Have Your Cake: Scone

A new, darker off-white that works well with other whites as well as many finishes in our palette. Whites remain as top sellers with consumers, and Scone adds even more flavor to your offering. Now available on all PureStyle and Maple door styles.

11

# Gray Reaches New Heights: Bluff

A true soft gray in a cool tone that is sure to stand the test of time. Count on Bluff to bring out the best in cabinetry without stealing attention away from the rest of the room. Now available on all PureStyle and Maple door styles.

## QUATTRO ZONED LIGHTING

### You hold the power.

Remotely illuminate up to four zones at once without thinking twice about the inconvenience and cost of hardwired switches and professional installation. Plus all components arrive ready-to-assemble with the cabinetry and are backed by a five-year warranty. Total creative control—this is the power of our Quattro Zone Lighting program.

Fast-trending, energy-saving, cool or warm task and feature LED lighting. Engineered to make designers and homeowners feel like geniuses.

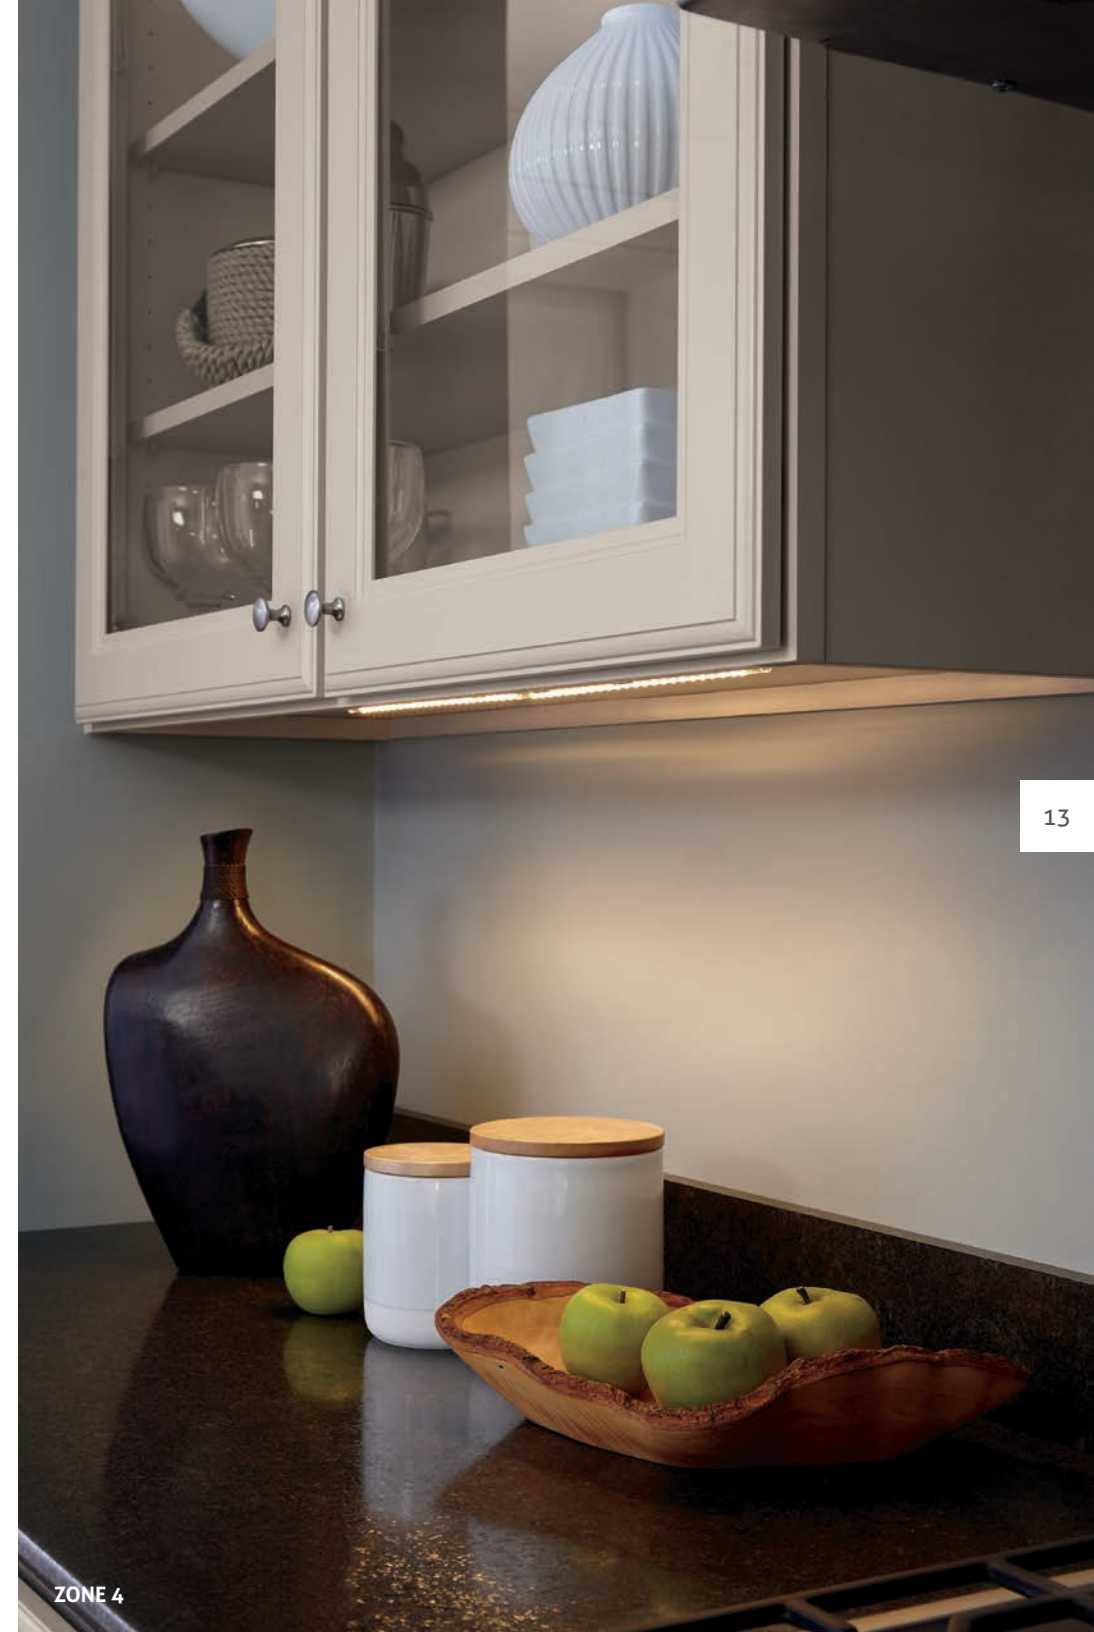

From in-cabinet lighting to surface, overhead and focused options, zoned lighting frees you to set the mood within 100 feet—without flipping multiple switches.

12

The lighting controller can be wall mounted or hand-held.

## Smart Options

- 33" and 87" Cabinet Heights**  
Additional height options, including essential trim items, mean there's no ceiling on creativity, in particular those remodeling applications where fewer standard heights require more inspired use of stacked moulding.
- 6" Wide Full Height Base Cabinet**  
A half-foot is a terrible thing to waste. This versatile option makes the most of every inch of storage opportunity (especially those tricky end-of-run applications) and is perfect for cookie sheets or shopping bags.
- Tall Crown Moulding**  
Ceiling heights aren't getting any shorter. So we've made it easier for you to top your designs off accordingly. Our new 3-17/32" tall option comes in 8' lengths for all wood types.
- Two-Drawer 42" & 48" Wide Base**  
Wide drawers are instant wow factors. Here's why: they create the linear look modern homeowners love. The 10" high boxes make accessing bulkier items a breeze.
- Wall Vertical Lift Cabinet**  
Open-and-shut case: along with the convenience of a door that lifts up and not out, Wall Vertical Lift Cabinets in 18" and 24" heights offer the clean, modern look everyone's clamoring for.
- Wall Appliance Garage with Vertical Lift Door (Not Shown)**  
Simply adding a vertical lift door to this classic storage configuration elevates the look to sleek and dramatically conserves counter space—and saves countless glasses and other kitchen essentials from meeting their makers.
