

Design Fee

What does the design fee cover?

This fee covers;

- time spent designing in our CAD system,
- consulting with you in person, via phone or email,
- all design advice and guidance on color, finishes, material, and door styles,
- time brainstorming design solutions and proposing alternative floor plans

If you enjoy working with us and feel we are a good fit for your project, we collect the design fee after the initial complimentary meeting. If you purchase your cabinets from us within 6 months of our final quote, then our design time is complimentary, and the paid design fee is credited from the final balance you owe on your cabinets.

If you choose not to purchase your cabinets from us, then the design is yours to keep.

How much is the design fee?

The design fee is based on the complexity, size, and scope of the project.

Bathrooms, Laundry rooms and small kitchens less than 10 x 10 are \$250.

Larger, more complex kitchens are between \$350 - \$500.

The designer will quote you the exact fee once they understand the size and scope of your project. Again, this fee is credited back to you from your final cabinetry balance if you purchase your cabinets from us within 6 months of the design fee payment.
